
Engineering & Construction

Today's engineers stand on the shoulders of giants and at the forefront of technological excellence. No modern gadgetry, medical equipment or transport device would be accessible without the engineer. From Leonardo da Vinci to Isembard Kingdom Brunel and Jack Kilby to Peter Rice, engineers have been instrumental in shaping and designing our world. The engineering & construction sector is one of the most exciting sectors in the marketplace, offering an array of opportunities for all professionals within the discipline.

At Brightwater, our Engineering & Construction team comprises specialist professional recruiters with backgrounds in engineering and in-depth knowledge of the market. We create, manage and deliver bespoke recruitment solutions to individuals and companies in all sectors of engineering.

Our areas of expertise include:

- *Mechanical*
- *Electrical*
- *Environmental / Water*
- *Energy / Sustainability*
- *Consulting Design*
- *Construction Site*
- *Maritime / Marine*
- *Geotechnical / Earthworks*
- *Oil & Gas*
- *Petrochemical / Power*
- *Roads / Rail*
- *Airports*

The importance of the engineering and construction profession will only increase in the years to come. Engineers will be crucial to realising an innovation-driven knowledge economy and play a vital role in the development of any country, particularly within infrastructure and creating new energy solutions.

We recruit for an array of roles including:

- *Contractor Site Engineer*
- *Building Services Engineer*
- *Health & Safety Manager*
- *Environmental & Water Engineer*
