

# Supply Chain & Logistics

The Supply Chain sector in Ireland has expanded rapidly over the last few years. There have been significant changes and developments across a wide range of sectors in relation to quality, production, costs and logistics. New legislation means that firms are required to demonstrate complete accountability across their entire supply chain process. This cross-functional approach to managing the movement of both raw materials and finished goods has led to new positions being created across a range of industry sectors.

In response to these market changes, Brightwater set up a specialist Supply Chain & Logistics desk in 2005 to cater for mid level to executive level positions. Our dedicated team is staffed by highly skilled recruitment consultants ensuring your staffing needs are managed in a proactive rather than a reactive manner. We recruit supply chain professionals on a permanent, temporary and contract basis.

## Our areas of expertise include:

- *FMCG*
- *Pharmaceutical*
- *Healthcare*
- *Distribution*
- *Retail*
- *Electronics*
- *Food & Drinks*
- *Manufacturing*
- *Energy*

Brightwater recognises the importance of serving specialist global industry sectors and an industry-focused approach to the recruitment process. Customers in all geographies and sectors face supply chain challenges that impact business performance and competitive positioning and thus the number of opportunities within the supply chain sector has grown dramatically.

## Our Service to You

At Brightwater, we pride ourselves in our superior levels of service. Brightwater offers a truly consultative service to both client and candidate from the very start of the recruitment process to completion. Our commitment to service and our technical expertise sets us aside from our competitors. We also offer additional services such as providing salary surveys and information on current market trends. We take great pride in building successful and lasting working partnerships with both employers and jobseekers.

For a confidential discussion, please contact our Supply Chain & Logistics team.
